SUMMARY

8th-semester Computer Science student at Universitas Pembangunan Nasional Veteran Jawa Timur, focused on Android and full-stack web development. Experienced in building mobile apps, web platforms, REST API integrations, and backend features through internships, freelance projects, and community work. Strong in practical problem-solving, team collaboration, and mentoring fellow students in mobile development.

SKILLS

Languages & Frameworks: Kotlin, JavaScript, React, Tailwind CSS, NestJS

Mobile Development: Android Development, MVVM, Room, Retrofit, Android Architecture

Backend & API: REST API, Authentication, Database Design, Booking Flow, Report/Export Features

Design & Creative: Figma, UI/UX Design, CapCut, Canva, Motion Graphic, Video Editing

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer | PT Mentari Okka Sukses Utama | Oct 2025 - Feb 2026

- Built a live CRM web application for umrah agents and customers using React, Tailwind CSS, and NestJS.
- Developed REST APIs, authentication, booking flows, report/export features, and admin dashboard modules.
- Supported package ordering, customer management, agent management, and flight ticket booking workflows.
- Collaborated in a small team to deliver a production-ready web system aligned with business workflows.

Web Developer Intern | Digital Hero | Sep 2025 - Dec 2025

- Completed a three-month Web Developer internship building an AI learning LMS using React and Tailwind CSS.
- Built responsive learning pages and interface components connected to API data.
- Fixed frontend bugs and improved page behavior across development iterations.

Video Editor | PT. Bizhub Digital Indonesia | Dec 2024 - Aug 2025

- Produced Instagram Reels and ad content for multiple clients using CapCut and Canva.
- Maintained visual consistency and delivered content according to client requirements.

Independent Study - Android Development Learning Path | Bangkit Academy | Sep 2024 - Dec 2024

- Completed Android Development Learning Path covering Kotlin, MVVM, Room, and machine learning integration.
- Collaborated in a capstone project to develop a mobile application solution.

Video Editor | Tribelio Creative | Aug 2024 - Nov 2024

- Edited Instagram Reels and advertisement content based on creative briefs.
- Focused on compelling visuals and delivered projects under tight deadlines.

Android & Web Developer | PT. Hisar Global Indonesia | Aug 2023 - Dec 2024

- Developed web and Android applications for agent control and monitoring.
- Implemented sales entry, activity reporting, and performance summary modules.
- Used Kotlin and Retrofit to connect Android applications with RESTful APIs.

Lead & Mentor | Mobile Developer Community | Jul 2023 - Jul 2024

- Led and mentored 30+ students in Android development.
- Taught fundamental concepts and guided members through hands-on projects.
